

From the **2022 Fall Semester**, please follow the regulations and use the new form. Your old record sheet (before 2021 spring semester) is still valid. You should keep the both record sheets properly by yourself.

The regulation summarizing:

1. In your **first year of study**, you need to take the trainings:
 - A. **General Training (3 hours)**: training course held by your lab (lab supervisor). Course contain should be related to your lab job, lab principles/standard operating procedure, emergency response, fire drills, or any knowledge about lab safety.
 - B. **Specialized Training (at least 6 hours)**:
for local students: Attend the courses held by the EHS Center of NTU and obtain a certificate every three years:
<http://esh.ntu.edu.tw/epc/index.php?id=MzA=#a>
for foreign students: attend the on-line courses:
<http://esh.ntu.edu.tw/epc/index.php?id=MzA=&n=NzI3#sub> Course A + B, and obtain a certificate every three years
2. In your **fourth year and seventh year of study**, you need to take the training:
 - A. **Specialized Training (at least 6 hours)**:
for local students: Attend the courses held by the EHS Center of NTU and obtain a certificate every three years:
<http://esh.ntu.edu.tw/epc/index.php?id=MzA=#a>
for foreign students: attend the on-line courses:
<http://esh.ntu.edu.tw/epc/index.php?id=MzA=&n=NzI3#sub> Course A + B, and obtain a certificate every three years
3. In your **second, third, fifth and sixth year of study**, complete one-hour lab safety training, and obtain a certificate.

The Department of Chemistry announces the training courses by e-mail. You need to check your NTU mailbox often.

Those who have completed the training can contact Mr. Yi-Hsiang Chao or Ms. Hsiao-Ru Chu at the Dept. Office, who will stamp the sheet above in the presence of a certificate.
