The Second Bulletin

The 20th Taiwan Spring School on Particles and Fields will be held at Department of Physics, National Taiwan University, Taipei during April 1-4, 2007. The purpose to to introduce to graduate students recent progress on important and hot topics in particles and fields.

1. Registration

If you have not yet registered, please do it as soon as possible via the school home page. Please report to the registration desk before 12:00 noon on Apl. 1 in order to reserve your lunch box. If you arrive after 12:00 noon, you may not have a lunch box for the first day.

2. Recitations

As in the 19th school, we shall organize one-hour recitations in the afternoons of Apl. 2 and 3. Students are encouraged to participate these recitations, at which they can raise questions or discuss physics with the lecturers. To help communication between lecturers and students, we have invited several coordinators as below

Lecturers	Titles	Coordinators
Andre	Neutrino Physics	Shao-Long Chen
Luca	Cosmology	Wolung Lee
Xerxes	Supersymmetry	Otto Kong
Gary	String Phenomenology	Chuan-Tsung Chan, Wen-Yu Wen

3. Special Seminar

Spring School provides an opportunity for colleagues from different subfields to meet each other, and an opportunity to share interesting works appearing in the past year. As an initiative, Prof. Kin-Wang Ng's paper published in PRL has been selected. Prof. Ng will report this work as a special seminar in the afternoon of Apl. 1 with the title

Probing the Universe with cosmic microwave background
