

蔡肇偉博士 (Chao-Wei Tsai, Ph.D.) 簡介

Research Scientist
National Astronomical Observatories
Chinese Academy of Sciences
Beijing, China
E-mail: cwtsai@nao.cas.cn

■ Education:

- D.Phil. in Astronomy, University of California, Los Angeles
- M.Sc. in Astronomy, National Central University
- B.Sc. in Physics, National Taiwan University

■ Professional Positions:

- Adjunct Research Scientist, Institute for Frontiers in Astronomy and Astrophysics, Beijing Normal University, Beijing (2022-present)
- Adjunct Associate Professor, University of Chinese Academy of Sciences, Beijing (2021-present)
- Research Scientist, National Astronomical Observatories, Chinese Academy of Sciences, Beijing (2018-present)
- Assistant Researcher, University of California, Los Angeles (2016-2018)
- NASA Postdoctoral Program Fellow, Jet Propulsion Laboratory (2012-2016)
- Postdoctoral Scholar, California Institute of Technology (2009-2012)

■ Research Interests:

- Active galactic nucleus - black hole accretion and feedback
- Supermassive black hole mergers
- Extreme star formation activities and star cluster formation
- Dwarf galaxy formation and evolution
- Applications of machine learning in Astronomy

■ Honors & Awards:

- Pioneer Talents Program, Chinese Academy of Sciences (2018)
- NASA Group Achievement Awards, WISE Hot Dust Obscured Galaxy Team (2016)
- NASA Group Achievement Awards, WISE Science Data Center Team (2012)
- NASA Postdoctoral Program Fellowship (2012-2015)
